Reference available upon request.

## WORK EXPERIENCE

### Software Developer

Cinefly  
Mar 2021- Present

- Design and Develop the UI/UX for the website, web portal app, and mobile application using Adobe applications for SaaS.
- Design and developed a responsive website using HTML5/SCSS and JavaScript
- Predominantly worked in front-end, middleware web app and mobile app development, and working closely with the back-end developer team using various technologies such as React/Redux, TypeScript, and React Native
- Integrating front-end UI with the constructed API
- Design and implementation of continuous integration and deployment pipelines
- Maintain the extension of the system through configuration with relevant cloud services
- Code review, testing of configuration and code produced by other team members
- Maintain multiple platforms such as the website, web app, and mobile.
- Continuous updates and refactor of codes, contents, and addressing any bug issues in frontend, cloud configuration or backend
- Work ad hoc jobs when required

### Data Maintenance Officer

McArthur . Contract  
Mar 2020 - Apr 2020 & Nov 2019 - Dec 2019

- Responsible for keeping records up-to-date to ensure new reserves are deployed on time and in appropriate areas
- Provide and configure access for the new reserve members
- Generate and update training reports, and data entry

### Peer Assisted Study Session Leader & Peer Mentor

Griffith University . Part-time

- Facilitated small group sessions and activities to help fellow students process and engage with their course materials
- Help and guide them navigate university life and assisted peers with their study guidelines
- Answer any design related questions and share experiences from my previous subject

### Claims Consultant

Allianz

- Helping clients lodge their claims
- Validate claims – making sure claims are in accordance of their policy builders and restoration
- Allocations of assessment or repairs
- Responding to all enquiries regarding claims
- Claim management – identifying solutions and resolving conflicts between clients and contractors
- Claims review and processing finalisation of claim
- Ordering replacements through suppliers
- Processing payment once claim is finalised and has been accepted

## SOFT SKILLS

- Possesses a strong work ethic with great communication, and organization skills. Appreciates and takes feedback well.
- Strong problem-solving skills and ability to work under pressure
- Prefers to work in a team environment but can work as an individual with minimal supervision.
